Luxury Products for Hotel and Restaurant Projects

2014 COLLECTION

About Craster

Craster enables hospitality brands to engage with their customers and create loyalty through the design and manufacture of intelligent, high quality products.

We are passionate about creating beautiful, durable products that emphasise the qualities of the underlying materials from which they are made. It is rarely the materials in a product that wear out, but rather the construction will fail or the design will age. In a time where natural materials are increasingly scarce, it is one of our core principles to ensure that our products last the natural life of the materials themselves. We ensure that our timbers are sourced from sustainable forests.

Many of the world's great hotel and restaurant groups are our long term clients, and we work globally with a fantastic group of distributors.

Design sits at the centre of our culture. We are therefore proud to offer a product design service that allows our clients to completely differentiate themselves through the creation of unique products that communicate their brand.

As always, we would love to hear your feedback.

FLOW™

CRASTER'S NEW MODULAR DISPLAY SYSTEM

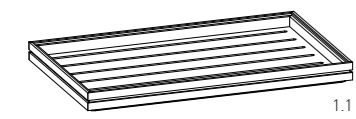

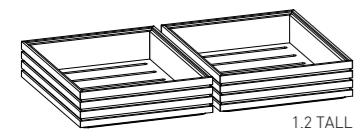

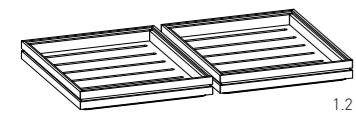

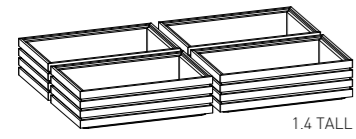

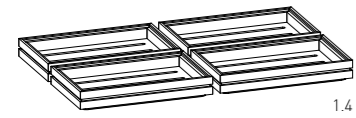

Flow is a dynamic system of display units, organised around a modular gastronorm footprint. The system gives you the flexibility to showcase your creativity in a multitude of contexts.

The two ranges, Rustic (oak) and Refine (walnut), are comprised of materials and modular components that provide the versatility to tailor your display to the specific requirements of each event.

Flow's interchangeable and stackable components also allow for efficient replenishment of display between front and back of house.

TRAY SIZES

TRAY AND ELEVATION COMBINATIONS

TRAYS + TRAYS

- A range of modular gastronorm sized trays (Full, 1/2, 1/4, 2/4, 3/9)
- Trays are designed to interlock enabling a huge range of display options
- Storage is easy and compact. All trays slot together to create a single compact stack

TRAYS + FRAMES

- A range of polished solid stainless steel frames that enable a sophisticated versatile buffet display
- Varying horizontal and angled heights
- Unique location system enables rotation of different top plinths in quality materials - including oak/walnut/glass/marble

TRAYS + TROLLEYS / STANDS

- Flow trays are designed to be deployed seamlessly across a range of mobile point of sale trolleys and stands
- Stands are designed to enable tray replenishment back of house, and facilitate the use of different tray sizes and depths according to demand
- Trolleys provide maximum display area through the use of retractable angled shelves onto which trays can be deployed, and also feature folding flaps to extend presentation area

Craster provides a creative platform that empowers the buyers of premium Hotel, Retail and Restaurant groups to become fully involved in creating innovative luxury product ranges that differentiate their brands. We have enjoyed working on development briefs with some fantastic clients over the past year:

Hotels

In the hotel sector, Craster has worked on the development of custom food and beverage as well as bedroom products for a number of important hotel openings, including The Intercontinental Westminster & The South Place Hotel, London; The Ritz Carlton, Vienna; The Ritz Carlton Grand Canal, Abu Dhabi. For The South Place London project we worked with Conran designers to design a range of discrete high gloss white bathroom products that complemented their marble counter-tops.
