

Craster Ltd. is seeking a talented, Czech Speaking Supply Chain Manager to manage supply chain operations, delivery, reporting and to develop best practice Supply Chain procedures within the organisation. Craster designs and manufactures bespoke luxury equipment for the hospitality and restaurant sector.

Responsibilities:

- Reporting to Operations Director.
- An overall focus on reducing costs and driving improvements in service throughout supply chain.
- Overall responsibility for finished goods procurement from an international supply base.
- Forecasting demand and capacity with factories.
- Management of all areas of distribution (domestic and international) and negotiation of best rate tariffs with distribution suppliers.
- Driving improvements in forecasting and accuracy of operational reporting.
- Leading continuous improvement in business operations – with attention to our warehouse team and suppliers.
- Focus on creating an industry leading distribution service.
- Line management responsibility (1x administrator)

Experience:

- 5 years previous experience in a supply chain management – including stock analysis, pricing models, shipping, KPI reporting on suppliers, and proven ability to reduce costs in this area.
- Superb attention to detail and analytical skills.
- Independent self starter and intelligent problem solver.
- Strong organisational, project and change management and presentation skills.
- Excellent people and client relationship management skills.
- Proven ability to influence cross functional teams and suppliers.
- Be able to demonstrate experience in systems management.
- Experience of a New Product Development environment – i.e. quality control procedures.
- Evidence of ability to drive and improve performance.
- Software – MS Office – advanced knowledge of excel - and ability to quickly pick up in-house CRM and SOP system.
- A personal demand for excellence.
- Honesty, reliability, passion.
- Fluency in English and Czech is essential, knowledge of other languages a bonus.
